POLKA PORTALS

CANON 1.3.0 · 2026-10-31

The shield is the logo. The Phantom is the character.

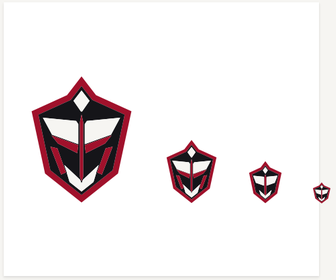

- Clear space: half the shield's width all round. Full shield from 48 px; smaller, use the small shield.
- Three inks only. Never recolour, outline, rotate, stretch or add effects.
- One shield per surface. Never merge it with the Phantom: shield in the chrome, Phantom as the art.

Paper holds the work. Black frames it. Crimson marks one point.

Ink black
#151519
SURFACE-INVERSE
18.21 : 1 ON WHITE

20 UI ICONS · 24 PX GRID · 1.5 PX STROKE · 20 FEATURE BADGES

Shape + colour + word. Never colour alone.

● Ready	Verified working now: the tool launched, the service answered, the reading was measured.
▲ Sample	Placeholder or demonstration data. Never shown without this label.
◆ Error	Tried and failed. Show the failure text and the next step.
■ Offline	Needs the network, and the machine is offline. Local features keep working.
■ Disabled	Turned off on purpose by the operator or policy.
● Verified	Inspected, executed or measured, with evidence linked.
▲ Unverified	Present or expected; not confirmed.
■ Proposed	Designed only.
▲ Pending verification	Present or configured, not yet confirmed working.
▲ Unknown	No information either way — e.g. the bridge did not report this field.
■ Not connected	The service exists but is not running or not reachable (e.g. launcher on localhost:9192, telemetry on :9191).
■ Unavailable	Not present on this drive or machine (missing tool, missing hardware).
■ Unsupported	Cannot work in this environment (OS, WinPE, architecture, browser).
▲ Partially tested	Some paths exercised; the gap is named.
■ Implemented	Built and syntax-checked; not exercised in the target environment.

Ask Phantom, or type > to run a command CTRL K

Run Diagnostics

Hardware, drivers and OS health in one pass.

MOD-01

Network Repair

Winsock, DNS and adapter resets.

MOD-02

TELEMETRY · SAMPLE

23%	91%	41%	62°
CPU	DISK C:	RAM	TEMP

Do

- Let paper dominate; frame with matte black.
- One crimson primary action per view.
- Pair every chaos mark with a precision mark.
- One hooded Phantom per surface, with clear space.
- Label sample data SAMPLE; show real states.
- Space Grotesk, Inter, JetBrains Mono — nothing else.

Don’t

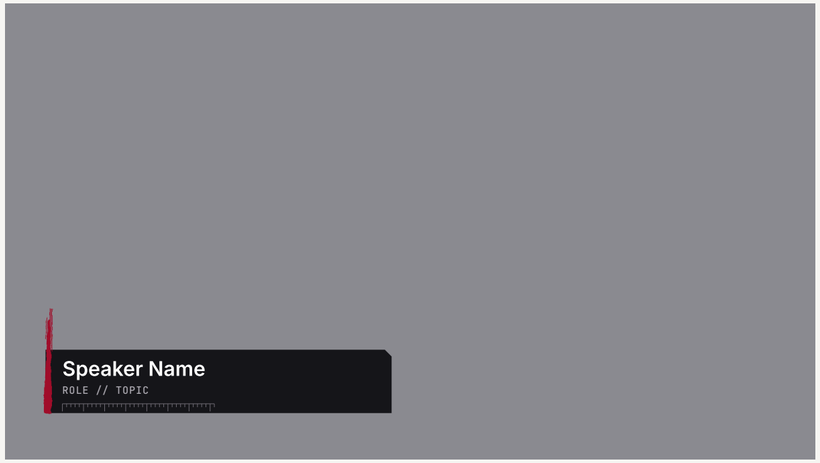

- Crimson washes, neon glows, cyan or magenta light.
- Art behind text, tables, terminals or controls.
- Gold, purple, obsidian themes or operator colours.
- Crimson text on black (2.26:1 — fails).
- Invented telemetry or fake tool launches.
- A second character, or the Phantom repeated.
